Does anyone have a real manual or maybe a copy therefrom for any of the following classic ancient regenerative receivers?

1. SE-143
2. SE-1220
3. SE-1420
4. SE-1440
5. IP-500
6. IP-501
7. IP-501A
8. BC-131

These receivers are a line of receivers that started in 1917 and ended

about 1930 in military and commercial services. The receivers were used up through the start of WWII in Navy, Coast Guard, Merchant Marine and various commercial services. I seem to only be able to find some bits and pieces about them in various books, but have yet to run across real manuals to them anywhere. There were hundreds of these things made, and hopefully a few manuals or copies of the manuals still exist.

Pointers appreciated. Copies or originals are fine. Condition does not matter as long as they are readable.

Thanks
